

KIPP INC.

When **flexibility and reliability** is specified...

MANY OPTIONS. SINGULAR QUALITY.

Leveling Sets and Washers

KIPP Leveling Sets and Spherical Washers come in a wide variety of sizes, in your choice of steel or stainless steel. When your application demands precise adjustment combined with strength and durability, choose KIPP height adjustment and level compensating components.

K0692 Leveling Sets

threaded leveling device with through-hole for mounting bolt

K0693 Leveling Sets with locking nut

similar to K0692, but with a locking nut

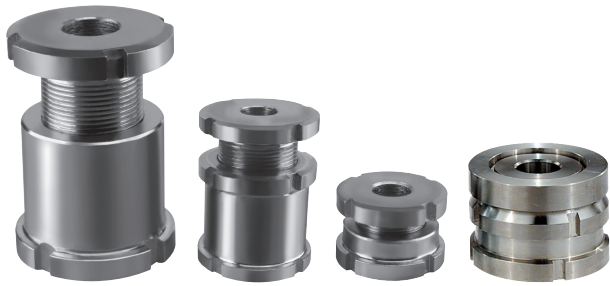

K0694 Leveling Sets low version

low profile version for smaller adjustments

K0695 Leveling Sets with spherical washer

adds a spherical washer on top for up to 4° of angle adjustment

All four types available in steel or stainless steel.

K0729 Spherical Washers DIN 6319 ed. 10/01

in steel or stainless steel

Tough and durable, in hardened steel or stainless steel, these washers permit up to 3° of angle adjustment. Order the spherical washer and conical seat separately.

K0691 Spherical Leveling Washers, captive

in steel or stainless steel

These leveling washers come as a permanently joined pair, for convenient handling and easy installation. Permits up to 4° of angle adjustment.

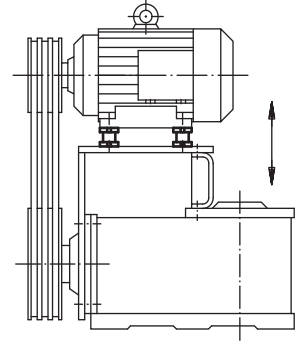

The Right Fit for Your Application

Choose **Leveling Sets** for alignment where a greater range of adjustment is needed. Ideal applications include adjustment of motors, drive components, and production lines.

Product groups:

K0692 (plain)
K0693 (with locking nut)

Outside diameter 25-70 mm
Minimum height 28-66 mm
Maximum height 43-106 mm

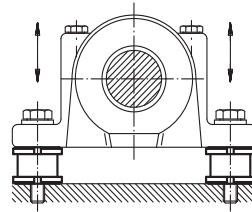

Leveling Sets, low version are designed for finer adjustments with a smaller range of travel. Ideal applications include adjustment of bearings, motors, drive components, and production lines. The primary difference of this product group is its low profile.

Product groups:

K0694

Outside diameter 25-70 mm
Minimum height 15-33 mm
Maximum height 19-43 mm

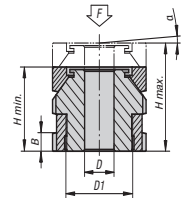

Leveling Sets with Spherical Washer are designed to incorporate height adjustment and compensate for up to 4° angle of inclination.

Product groups:

K0695

Outside diameter 25-80 mm
Minimum height 22-56 mm
Maximum height 26-68 mm
Angle adjustment up to 4°
