### Quarter-turn clamp lock stainless steel, knob stainless steel

#### Item description/product images

### Description

#### Product description:

Quarter-turn clamp locks are used for replacing and locking fixtures or hatches quickly and easily. Toolless clamping shortens setup times.

#### Material:

Housing stainless steel. Bolt steel. Rotary knob stainless steel.

#### Version:

Housing bright. Bolt nickel plated. Rotary knob stainless steel, bright.

#### Note:

Stainless steel M3 fastening screws are included. Mounting option 1 for plate thickness 6 mm. Mounting option 2 for plate thickness > 6 to 14 mm.

#### Type of operation:

Check that the rotary knob is in the "OFF" position. Set the quarter-turn clamp lock in the premounted clamping plate. Turn the rotary knob to the "ON" position. When fully clamped, a click sound is heard.

#### Accessory:

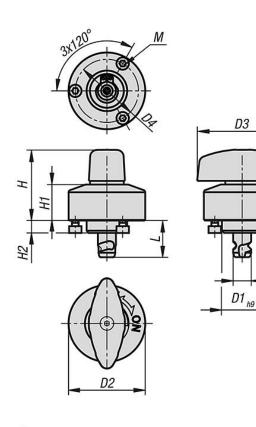

Clamping plates K1560

# **Drawing reference:** 1) plate
