

Filler necks

Item description/product images

Description

Material, version:

1. Sealing cap red Polyamide 66 thermoplastic.
2. Filler sieve black Polypropylene thermoplastic.
- 3 Flange electro zinc-plated steel.
4. Fastening screws electro zinc-plated steel.
- 5 Flange seal cork.
6. Chain brass.

Note:

style A: the max. pressure while venting is 50 mbar (0.73 psi) with a max. air volume of 500 l/min. The air filter prevents dirt entering.

style B: contains a plastic vent and aeration valve. The opening pressure while venting is 0.35 bar (± 0.05 bar). The opening pressure while aerating is 0.05 bar. This style is suitable for applications where the airflow needs to be controlled in both directions.
