

Bushing for ball lock pins with LONG-LOK thread lock

Item description/product images

Description

Material:

Stainless steel 1.4305

LONG-LOK thread system in nylon

Version:

Steel parts natural finish.

Note:

Ball lock pin bushings are ideal for the easy and quick positioning of ball lock pins.

Benefits:

- the bushing is centered by the centering collar.
- easy and reliable positioning.
- can be screwed into various materials.
- usable from both ends
- the LONG-LOK thread lock allows the depth to be matched exactly to existing components, no locknut is required.

Drawing reference:

L2 = approx. 2x thread pitch

Bushing for ball lock pins with LONG-LOK thread lock
